Linkedin • Github

OBJECTIVE

Highly skilled Front-end (React) developer with experience in designing, developing, and maintaining web applications using the React framework. Proficient in HTML5, CSS3 and JavaScript with a strong background in web design and development. Excellent problem-solving and a passion for continuous learning and professional development.

EDUCATION

Tanta University   2022 - 2026

Faculty Of Computers and Informatics (FCI)

Computer Science with General Grade: Very Good, GPA: 3.01

EXPERIENCE

Creativo Acadamy, El-Helw ST,Tanta   2024
- Front-end using vue framework to build responsive website with web development language (HTML5, CSS3, JavaScript) and develop a flexable final product.
- This training enhanced my ability to build full-stack web solutions from scratch, work collaboratively in development teams, and deliver production-ready applications using modern PHP and JavaScript ecosystems.

National Telecommunication Institute, Tanta university   2025
- Developed responsive and accessible web interfaces using HTML5, ensuring semantic structure and cross-browser compatibility.
  Styled modern, mobile-friendly layouts with CSS3, using Flexbox, Grid, and media queries. Implemented dynamic functionality and user interaction using JavaScript, including DOM manipulation, event handling, and form validation.

PROJECTS & EXTRACURRICULAR

MCity   07/2025
- MCity offers modern housing solutions with a focus on design, smart living, and quality. Our services include Custom Home Design & Architecture, Smart Home Integration, Urban Housing Developmen , Construction Management, Interior Styling & Furnishing, Real Estate Consulting. (building using HTML5, CSS3, JavaScript).

Portfolio   09/2025

- I'm a passionate Front-end Developer specializing in React.js with a keen eye for design and performance. Tanta University student specializing in Computer and Information Sciences while contributing as a Full-stack Developer at Programmers.io. Gained expertise in ASP.NET Core, C#, and SQL Server to deliver enterprise-level applications. Collaborated closely with cross-functional teams to build robust back-end systems and dynamic front-end interfaces using Razor Pages and Blazor. Developed responsive and user-friendly web interfaces utilizing HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility and performance optimization. Passionate about integrating innovative solutions to enhance usability and functionality, reflecting a strong commitment to continuous learning and professional growth in web development.

UniversityManagement   11/2024

- UniversityManagement is a web-based application designed to streamline and automate key administrative tasks within a university environment. The system provides modules for managing students, faculty, courses, departments, and scheduling. Built with C# and ASP.NET, it follows an MVC architecture to ensure scalability, maintainability, and clean separation of concerns.
