

Mahmoud Hisham Morad

Full-Stack Developer

✉ m7mudmorad10@gmail.com

☎ + 20 109 498 7803

📍 El-Fateh ST, Tanta

OBJECTIVE

Highly skilled Front-end (React) developer with experience in designing, developing, and maintaining web applications using the React framework. Proficient in HTML5, CSS3 and JavaScript with a strong background in web design and development. Excellent problem-solving and a passion for continuous learning and professional development.

EDUCATION

Tanta University, Computer Science

2022 – 2026

Faculty Of Computers and Informatics (FCI) General Grade: Very Good GPA: 3.01

SKILLS

Programming languages (HTML5, CSS3, JavaScript, C++, C# and php.) |

Computer Software/ Frameworks (Git, React.js, Laravel, Bootstrap, JQuery.) |

Soft Skills (Communication, Teamwork and Collaboration, Time Management, Attention to Details and Creativity.)

LANGUAGES

Arabic | English

TRAINING & EXPERIENCE

NTI – Huawei Egyptian Talents Academy (ETA)

2026 | Tanta university

- Completed an intensive Artificial Intelligence training program at the NTI–Huawei Egyptian Talents Academy (ETA), where I gained a solid foundation in AI and Machine Learning concepts. The program covered data preprocessing, exploratory data analysis, feature engineering, and the development of predictive models using Python and industry-standard libraries such as NumPy, Pandas, and Scikit-learn.
- Also learned the fundamentals of Deep Learning, neural networks, and AI model evaluation while applying these concepts through practical projects and hands-on exercises to solve real-world problems.

National Telecommunication Institute (NTI)

2025 | Tanta university

- Developed responsive and accessible web interfaces using HTML5, ensuring semantic structure and cross-browser compatibility.
- Styled modern, mobile-friendly layouts with CSS3, using Flexbox, Grid, and media queries. Implemented dynamic functionality and user interaction using JavaScript, including DOM manipulation, event handling, and form validation.

Information Technology Institute (ITI)

2025 | Tanta university

- Completed the ITI Summer Training Program in Full Stack Web Development using Laravel, where I gained practical experience in designing and developing dynamic web applications. The training covered PHP, Laravel Framework, MVC architecture, RESTful APIs, MySQL database design, authentication and authorization, and front-end technologies including HTML, CSS, JavaScript, and Bootstrap.
- Throughout the program, I applied these concepts in hands-on projects, strengthening my skills in building secure, scalable, and maintainable full-stack web applications while following software development best practices.

Creativo Academy

2024 | El-Helw ST, Tanta

- Front-end using vue framework to build responsive website with web development language (HTML5, CSS3, JavaScript) and develop a flexible final product.
- This training enhanced my ability to build full-stack web solutions from scratch, work collaboratively in development teams, and deliver production-ready applications using modern PHP and JavaScript ecosystems.

PROJECTS & EXTRACURRICULAR

YASPO

05/2026

YASPO is a modern, self-hosted Learning Management System (LMS) and educational platform designed for single classes or organizations. It provides a complete suite of tools for educators to manage students, assignments, quizzes, grading, announcements, and live meetings.

Portfolio

09/2025

Developed a responsive personal portfolio website to showcase my projects, skills, and experience with a modern, user-friendly design

MCity

07/2025

MCity offers modern housing solutions with a focus on design, smart living, and quality. Our services include Custom Home Design & Architecture, Smart Home Integration, Urban Housing Development, Construction Management, Interior Styling & Furnishing, Real Estate Consulting. (building using HTML5, CSS3, JavaScript).

MRestaurant

06/2025

Developed MRestaurant, a full-stack restaurant management web application using Laravel 12 and MySQL to streamline daily restaurant operations. The system features an intuitive Admin Dashboard for managing menus, customer orders, inventory, and overall business activities. Implemented inventory management to track stock levels and support efficient resource utilization, while integrating RESTful APIs for seamless data exchange. Built the application following Laravel's MVC architecture and best practices, ensuring a secure, scalable, and maintainable solution with optimized database design and backend performance.

UniversityManagement

11/2024

UniversityManagement is a web-based application designed to streamline and automate key administrative tasks within a university environment. The system provides modules for managing students, faculty, courses, departments, and scheduling. Built with C# and ASP.NET, it follows an MVC architecture to ensure scalability, maintainability, and clean separation of concerns.
